

MP-2PL

Inverted Pillow Type Flow Wrapper

FEATURES:

- Film direct feeding: suitable for wrapping multiple loose products without a tray and stick-shaped products, such as spaghetti.
- PLC programmable system: to control accurate bag forming/filling/sealing/cutting
- Quick film roll centered design: to shorten the film roll change over time
- Film direct feeding bag former: for feeding loose product directly onto the film
- PID temperature control system: for stable temperature control in the sealing areas
- Film tension control: for machine running smoothly especially in high speed
- Film length indicator: to be programmed for different length of bag
- Photocell design: to accurately position printed artwork on each package
- Cutter clutch: designed to have machine automatically stop and to ensure cutting blade will not be damaged when feeding position is incorrect

SPECIFICATIONS:

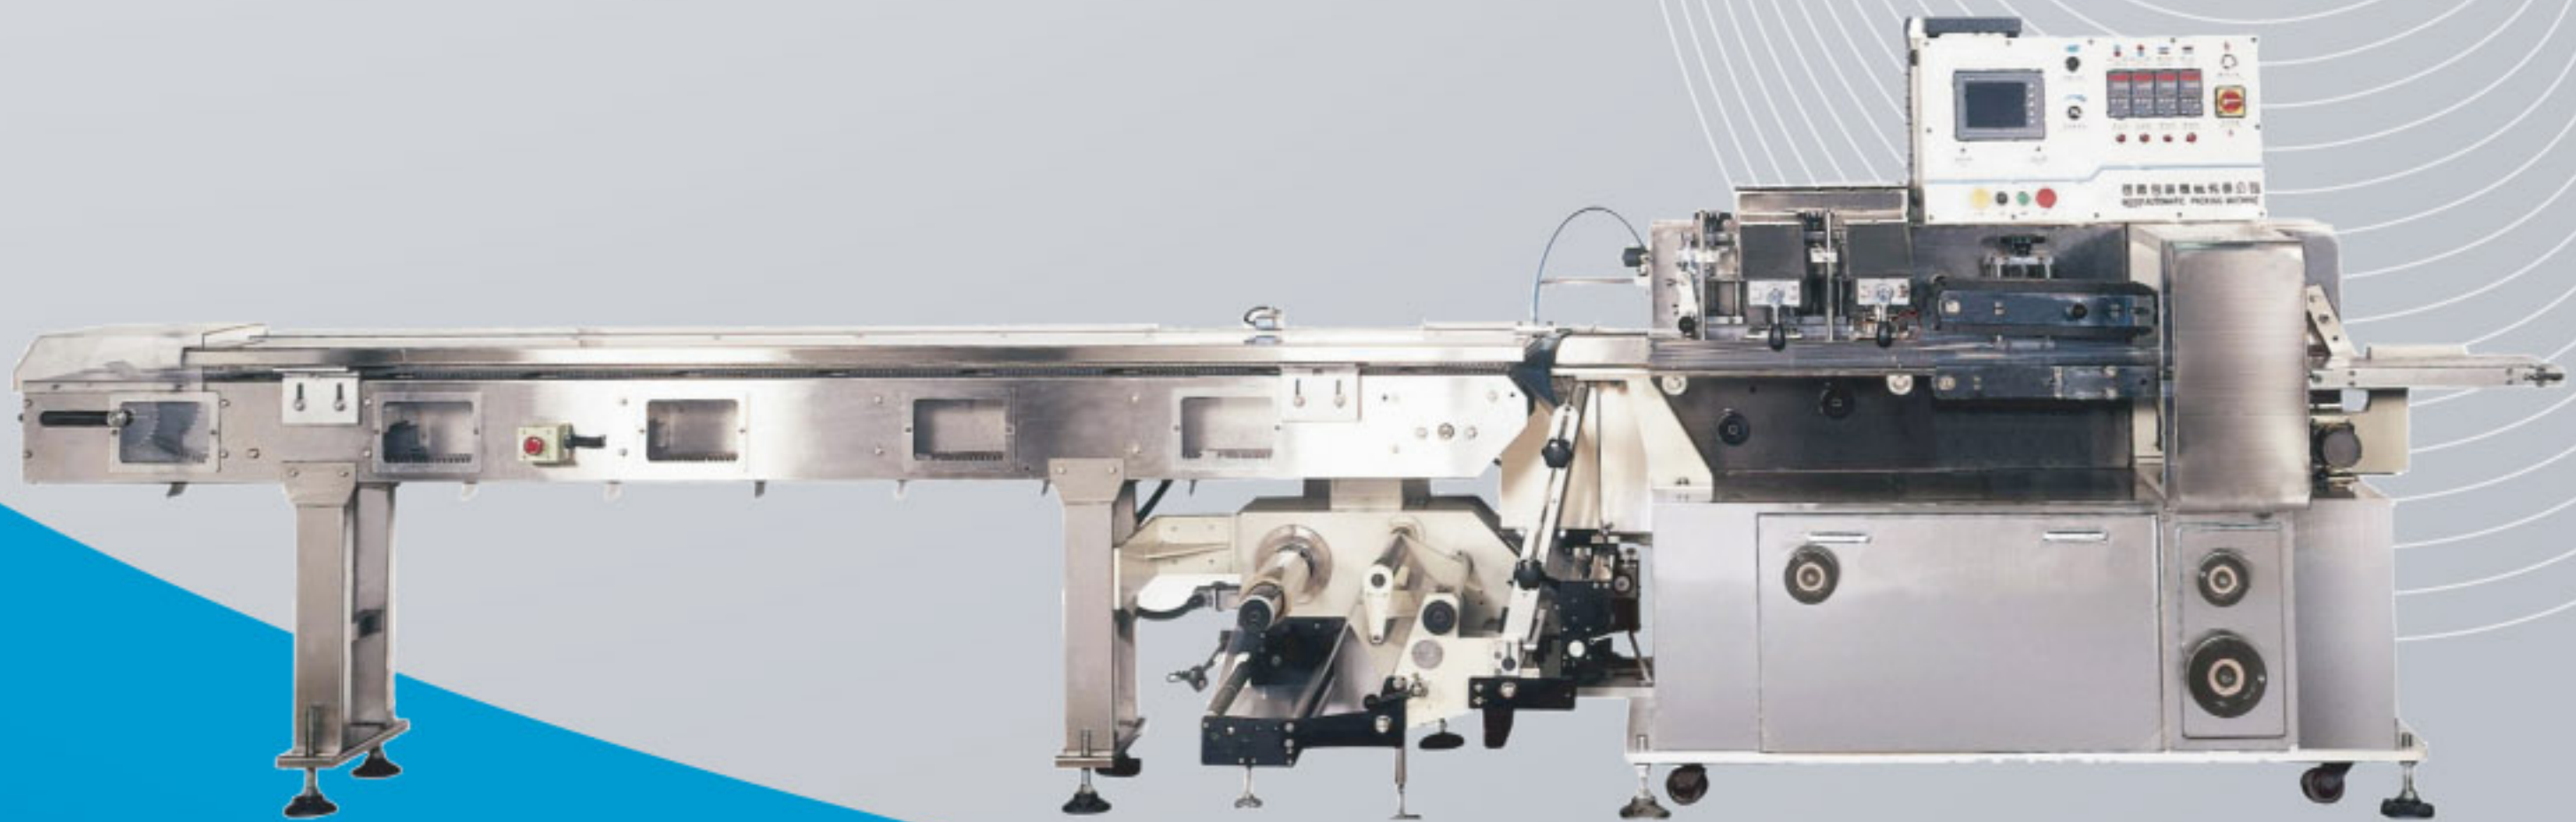

Packing type:	Pillow type (upside down)
Packing film width:	Max. (S) 390mm, (L) 590mm
Packing content size:	(S) 50-180mm/W, 3-40mm/H (L) 100-270mm/W, 40-90mm/H
Cut off length:	(S) 50-160mm (M) 100-300mm (L) 200-500mm
Packing film material:	PET, CPP, OPP, Al. Foil lamination, ...etc.
Packing speed:	50-400 bags/min (depending on packing content, packing size and the feeding system)
Power required:	220V, Single phase, 3.5KW
Machine size:	Approx. 4800mm/L, 850mm/W, 1650mm/H

***Remark:**

- Specifications are subject to change depending on product and film.
- It may be designed & customized individually by AE-KEED if the size of packing content is beyond the above size range

MAIN APPLICATIONS

Multiple items, large products and any loose products without a tray, such as dry noodles and spaghetti

OPTIONAL ACCESSORIES:

- | | | |
|--|--------------------------------|-----------------|
| (1) Infeed conveyor family with a wide range of product specific functionalities | (8) Continuous pouch loader | |
| (2) Automatic product feeder & loader for high speed purpose | (9) Easy tear off cut device | |
| (3) Liquid pumping unit for napkins wetting purpose | (10) Labeling machine | (15) Date Coder |
| (4) Automatic film splicer with splice rejection | (11) Perforator device | (16) Photocell |
| (5) Stainless standard applied machine shell | (12) Output collector | |
| (6) No product, no bag function | (13) Gusset device | |
| (7) Human machine interface | (14) Gas Flusher | |
